Cheney School Academy Trust confirmed as sponsor of school for Barton Park development

Dear Parent/Carer(s),

I am delighted to announce that Cheney School Academy Trust (CSAT) has been confirmed as the sponsor for the proposed new primary school to be built on the new development of Barton Park.

CSAT was invited to apply to sponsor this school by the local authority and Department for Education. The process was part of a competitive tender in line with Department for Education and local authority practice and we are very pleased to have been successful. We are finding that sponsorship of Bayards Hill Primary School is already benefiting the school communities both at Cheney School and Bayards Hill. We are sure that sponsoring the new school, which is designated a feeder school for Cheney School, can only enhance those benefits and our work with **all** our primary feeder schools.

The opening of the new primary school will be dependent on the building schedule of new houses on the development, so we will provide regular updates as more information becomes known.

We are very excited by this new opportunity to further develop the excellent educational provision in the city of Oxford.

Kind regards,
