

Ben hegedus – Head of HR - CSAT

1. Where's your favourite place in the world and why?

Other than Oxford of course, that would have to be Siena a city I fell in love with when we stopped of there at random during a trip around Europe in a Trabant.

2. If you could be any animal, which would you be?

A dolphin – they always come across as free and like they are having a 'whale' ☺ of a time, whatever the weather.

3. What's the craziest thing you've ever done?

Refer you to my answer to number one. There is a saying that you will only have one accident in a Trabant (which has a two-stroke engine and plastic body), reason being that you are unlikely to survive it. We did and had a great experience to boot!

4. What's your secret talent that no one knows about?

If I shared that I would have to kill all those who read this and I am busy enough as it is.

5. If you could invite three famous people to a dinner party, who would they be?

Yotam Ottolenghi to make the starter, Jamie Oliver to prepare the mains and Nigella Lawson to share the pudding.

6. What's your favourite meal?

For me it's less the food and more the company that matters.

7. Where did you work before you started here?

A local law firm.
